PROFESSIONAL SUMMARY

MSc Data Analytics graduate (1:1 Honours) with 8+ years of banking experience across operations and team leadership. Proven track record of leveraging data to drive efficiency, including automating workflows to reduce reporting time by 20%. Eligible to work in Ireland (Stamp 1G).

TECHNICAL SKILLS

Programming:	Python, R, SQL
Analytics & ML:	Statistical Analysis, Machine Learning, Time-Series Forecasting, Data Cleaning
Visualization & BI:	Tableau, Power BI, Microsoft Excel (Advanced)
Tools & Workflow:	Jupyter Notebooks, Git/GitHub, Visual Studio Code, HTML/CSS/JavaScript
Leadership:	Team Leadership, Stakeholder Management, Strategic Planning
Languages:	English (Fluent), Malayalam (Native)

PROFESSIONAL EXPERIENCE

Administrative Assistant - Data

Feb 2025 – Present

Nexus Ventures Limited

Dublin, Ireland

- Streamlining administrative workflows by implementing automated data processing scripts, reducing reporting time by 20%.
- Utilizing Python and Excel to analyze operational data, identifying key trends that support strategic resource allocation.
- Maintaining data integrity across internal databases through rigorous cleaning and validation protocols.

Laboratory Assistant - Data Analytics

Sep 2024 – Jan 2025

National College of Ireland

Dublin, Ireland

- Mentored 50+ MSc students in advanced data analytics concepts, including machine learning algorithms and statistical modeling in Python and R.
- Facilitated weekly practical sessions, ensuring 100% of students successfully completed complex data visualization projects.
- Collaborated with faculty to refine course materials, ensuring alignment with current industry standards and tools.

Assistant Manager

Oct 2022 – Apr 2023

The Federal Bank Ltd.

Kerala, India

- Co-managed branch operations, overseeing a portfolio of high-value accounts and ensuring seamless service delivery.
- Led a team of 5 associates, implementing performance tracking systems that increased team productivity by 15%.
- Achieved 100% compliance with banking regulations and audit requirements through meticulous record-keeping and process oversight.

Customer Associate

Jul 2015 – Oct 2022

The Federal Bank Ltd.

Kerala, India

- Processed an average of 150+ daily transactions with 99.9% accuracy, consistently exceeding operational targets.
- Resolved complex customer issues, maintaining a high customer satisfaction score and fostering long-term client relationships.
- Managed cash logistics and vault operations, ensuring strict adherence to security protocols and zero discrepancies.

EDUCATION

MSc in Data Analytics

National College of Ireland

2024 - 2025

Dublin, Ireland

First-Class Honours (1:1)

Relevant coursework: Machine Learning · Data Mining · Statistics · Python · R

B.Tech in Mechanical Engineering

Federal Institute of Science And Technology

2011 - 2015

Kerala, India

CGPA: 7.56/10

KEY PROJECTS

Air Quality Index Forecasting using VMD-FAN Hybrid Model

github.com/ankithbjoseph/vmd-fan · Published Thesis

Master's thesis developing a novel hybrid model combining Variational Mode Decomposition (VMD) and Fourier Analysis Networks (FAN) for accurate Air Quality Index forecasting. Achieved 1.49% MAPE on Taiwan air quality data, outperforming baseline models.

- Decomposed non-stationary AQI signals with Variational Mode Decomposition (VMD) and modelled periodicity using Fourier Analysis Networks (FAN).
- Validated generalisability across multiple Taiwan cities (MAE 0.72, MSE 1.35, RMSE 1.16).

Tech: Python · Machine Learning · Time-Series Forecasting · VMD · Fourier Analysis Networks

Environmental Impact on Dublin Pedestrian Footfall

github.com/ankithbjoseph/TeamAA_DAP_JAN2024 · Live Dashboard

Interactive dashboard exploring the relationship between environmental factors (weather, air quality) and pedestrian footfall across 20+ Dublin city locations. Analyzed temperature, humidity, precipitation, AQI metrics, and pedestrian counter data.

- Integrated 10+ weather variables and air-quality metrics (PM10, PM2.5, NO2, SO2) against pedestrian counts at 20+ Dublin locations.
- Built and deployed an interactive dashboard as a 3-person team project.

Tech: Python · Data Analytics · Data Visualization · Interactive Dashboard
